DAMEN

CIVIL WORKS

Damen Civil's involvement with a shipyard project during the execution stage can range from purely an advisory role to the delivery of a full turnkey project and anything in between. Operational services like training and shipyard management after delivery are also available. Together with our clients, Damen Civil investigates the most optimal division of scope to our mutual benefit. We always look for the best way to include substantial local content and aim for a long-term relationship with our clients and (local) partners.

Work fields

With our years of experience, extensive knowledge and proven work methods we have much to offer to our customers including:

- Dredging works
- Piling and foundation works
- Earth works and paving
- Concrete works
- Steel construction and assembly
- Building works
- M&E works

Project involvement

Our project management services cover all types of contracts and agreements, ranging from supply agreements and turnkey contracts to many other types of contractual relationships, such as:

- Design and consultancy
- Client's representation
- Project management
- Contract management
- Quality management
- Supervision and technical assistance
- Training
- Main contractor / sub-contractor
- Nominated / preferred supplier
